Blockquotes

Single line blockquote:

Stay hungry. Stay foolish.

Multi line blockquote with a cite reference:

The HTML `<blockquote>` Element (or *HTML Block Quotation Element*) indicates that the enclosed text is an extended quotation. Usually, this is rendered visually by indentation (see **Notes** for how to change it). A URL for the source of the quotation may be given using the cite attribute, while a text representation of the source can be given using the `<cite>` element.

multiple contributors - MDN HTML element reference - blockquote

Tables

Employee	Salary	
<b><u>Jane</u></b>	\$1	Because that's all Steve Jobs needed for a salary.
<b><u>John</u></b>	\$100K	For all the blogging he does.
<b><u>Jane</u></b>	\$100M	Pictures are worth a thousand words, right? So Tom x 1,000.
<b><u>Jane</u></b>	\$100B	With hair like that?! Enough said...

## Definition Lists

### Definition List Title

Definition list division.

### Startup

A startup company or startup is a company or temporary organization designed to search for a repeatable and scalable business model.

### #dowork

Coined by Rob Dyrdek and his personal body guard Christopher “Big Black” Boykins, “Do Work” works as a self motivator, to motivating your friends.

### Do It Live

I’ll let Bill O’Reilly will **explain** this one.

## Unordered Lists (Nested)

- List item one
  - List item one
    - List item one
    - List item two
    - List item three
    - List item four
  - List item two
  - List item three

- List item four
- List item two
- List item three
- List item four

### Ordered List (Nested)

8. List item one -start at 8

a. List item one

- i. List item one -reversed attribute
- ii. List item two
- iii. List item three
- iv. List item four

- b. List item two
- c. List item three
- d. List item four

9. List item two

10. List item three

11. List item four

## HTML Tags

These supported tags come from the WordPress.com code [FAQ](#).

### Address Tag

*1 Infinite Loop  
Cupertino, CA 95014  
United States*

### Anchor Tag (aka. Link)

This is an example of a [link](#).

### Abbreviation Tag

The abbreviation srsly stands for “seriously”.

### Acronym Tag (*deprecated in HTML5*)

The acronym **ftw** stands for “for the win”.

### Big Tag (*deprecated in HTML5*)

These tests are a **big** deal, but this tag is no longer supported in HTML5.

### Cite Tag

“Code is poetry.” —Automattic

### Code Tag

This tag styles blocks of code.

```
.post-title {  
margin: 0 0 5px;  
font-weight: bold;  
font-size: 38px;
```

```
line-height: 1.2;
```

```
and here's a line of some really, really, really, really long text, just to see  
how it is handled and to find out how it overflows;
```

```
}
```

You will learn later on in these tests that `word-wrap: break-word;` will be your best friend.

### Delete Tag

This tag will let you ~~strike-out text~~, but this tag is *recommended* supported in HTML5 (use the `<s>` instead).

### Emphasize Tag

The emphasize tag should *italicize text*.

### Horizontal Rule Tag

---

This sentence is following a `<hr />` tag.

### Insert Tag

This tag should denote inserted text.

### Keyboard Tag

This scarcely known tag emulates `keyboard text`, which is usually styled like the `<code>` tag.

### Preformatted Tag

This tag is for preserving whitespace as typed, such as in poetry or ASCII art.

## The Road Not Taken

### Robert Frost

Two roads diverged in a yellow wood,  
And sorry I could not travel both  
And be one traveler, long I stood  
And looked down one as far as I could  
To where it bent in the undergrowth;

(\\_/)  
(='.'=)  
(")\_(")

Then took the other, as just as fair,  
And having perhaps the better claim,  
Because it was grassy and wanted wear;  
Though as for that the passing there  
Had worn them really about the same,  
/ 0 \  
And both that morning equally lay  
In leaves no step had trodden black.  
Oh, I kept the first for another day!  
Yet knowing how way leads on to way,  
I doubted if I should ever come back.

|\\_/|  
/ @ @ \  
( > ° < )  
'>>x<<'

I shall be telling this with a sigh  
Somewhere ages and ages hence:  
Two roads diverged in a wood, and I—  
I took the one less traveled by,  
And that has made all the difference.

and here's a line of some really, really, really, really long  
text, just to see how it is handled and to find out how it overflows;

Quote Tag for short, inline quotes

*Developers, developers, developers...* -Steve Ballmer

Strike Tag (*deprecated in HTML5*) and S Tag

This tag shows ~~strike-through text~~.

Small Tag

This tag shows smaller text.

Strong Tag

This tag shows **bold text**.

Subscript Tag

Getting our science styling on with H<sub>2</sub>O, which should push the “2” down.

Superscript Tag

Still sticking with science and Albert Einstein’s E = MC<sup>2</sup>, which should lift the 2 up.

Teletype Tag (*obsolete in HTML5*)

This rarely used tag emulates teletype text, which is usually styled like the `<code>` tag.

Underline Tag *deprecated in HTML 4, re-introduced in HTML5 with other semantics*

This tag shows underlined text.

Variable Tag

This allows you to denote variables.
